

Planning & Forecasting

Innovative, high-quality and customised high-barrier packaging solutions for the food, tobacco, hygiene and pharmaceutical industries

Location:
Europe

Revenue:
EUR 700M

Business Challenge:

The customer was looking to streamline its spreadsheet-based business planning process across its 21 specialized operating centers. There was a specific need to capture inputs from multiple users and run dynamic simulations for faster insights.

Solution:

Leverage Inforiver on Microsoft Power BI for

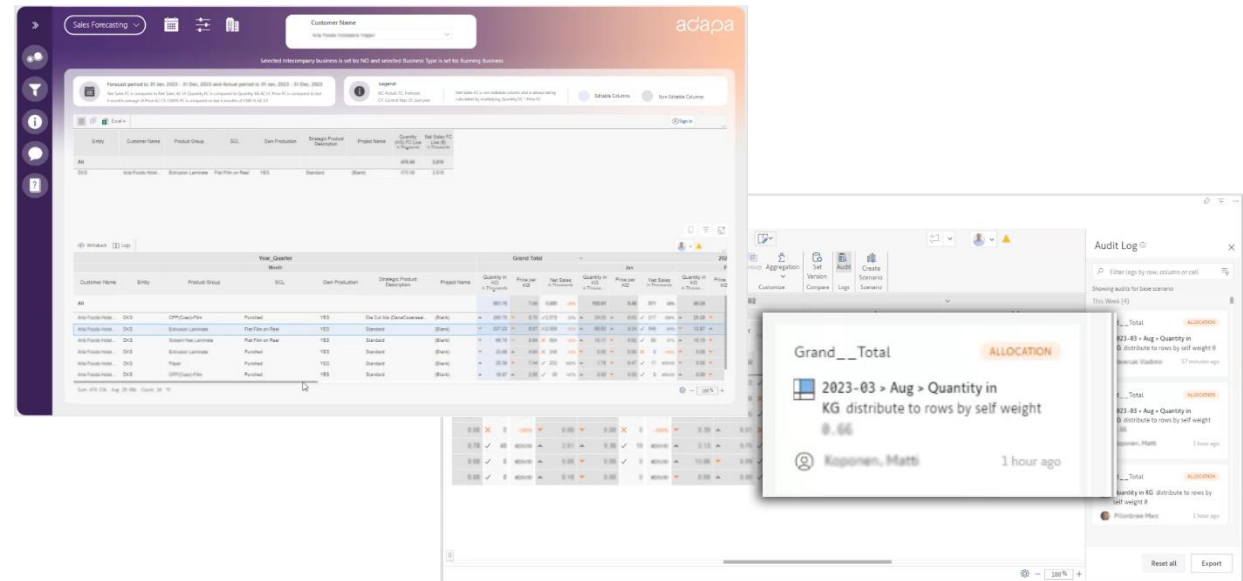

- Business planning
- Real-time user input capture
- What-if simulation & rolling forecasts
- Centralized writeback & data storage

Inforiver Feature Highlights:

- Distributed data entry from users in multiple locations
- Collaborative commenting
- Data Pivoting
- Audit trail
- Formula engine for simplified calculations
- Data writeback

Outcomes:

The solution delivered productivity & efficiency through reduced planning timelines. The secure data capture, commenting & writeback capabilities enriched collaboration & governance.

"We are pleased to express our satisfaction with Inforiver's products, team, and support services, which have proven to be a truly refreshing and transformative experience for our organization. Inforiver Enterprise has played a pivotal role in empowering our operations, significantly expediting our planning processes, and enhancing the seamless flow of information within our enterprise."
